ABOUT ME

Software Engineering undergraduate at The Open University of Sri Lanka with interests in Artificial Intelligence, Machine Learning, and full-stack engineering. Experienced in building web applications, backend systems, and AI-powered solutions using Python and the MERN stack with strong problem-solving and software engineering skills.

SKILLS

Programming Languages

Python | JavaScript | Java (Basic) | C (Basic)

Web Development

React.js | Astro | HTML5 | CSS3 | Tailwind CSS | Node.js | Express.js | REST APIs

Databases

MySQL | MongoDB

Concepts

Object-Oriented Programming (OOP) | Data Structures and Algorithms (DSA) | Agile Methodologies

AI & Machine Learning

NumPy | TensorFlow

Tools

Git | GitHub | Linux | Postman

EDUCATION AND TRAINING

2022 – CURRENT

BACHELOR OF SOFTWARE ENGINEERING (HONS) The Open University of Sri Lanka

Field of study Information and Communication Technologies |

Thesis Developing a Deep Learning Model for Online Scam Detection in Sinhala

2018 – 2021

G.C.E. ADVANCED LEVEL St. Thomas' College, Matale

Field of study Technology & IT

PROJECT EXPERIENCE

CURRENT

MindBou – Article Sharing Platform

Developing a full-stack article-sharing platform with AI-powered features utilizing **Python, React.js, Node.js, Express.js, MongoDB**, and **REST APIs** that enable users to publish, manage, and explore content efficiently

2025 – 2026

Spam Detection Model

Developed an NLP-based spam detection model built with **Python** for binary text classification on a dataset of 1,000+ samples, applying data preprocessing, text vectorization, and deep learning techniques to identify and filter spam and scam messages

2025 – 2026

Music Streaming Bot

Developed and deployed a Telegram music streaming bot. Implemented in **Python**, **yt-dlp**, **FFmpeg**, and a **Linux-based hosting** environment, serving 480+ active groups, supporting 70+ radio channels, and maintaining 90% uptime

Link github.com/hasindu-nagolla/HasiiMusicBot

2024 – 2025

MediMate - Online Appointment Booking System

Collaborated in a team to develop an online healthcare appointment booking system integrated **React.js**, **Node.js**, **Express.js**, **EJS**, **Bootstrap** and **MongoDB** that streamlines patient and doctor interactions and appointment management

Link github.com/MediMateBooking

CERTIFICATIONS

Coursera

Neural Networks and Deep Learning

Deep learning, neural networks, CNNs, RNNs, supervised models

Udemy

Python and Flask Framework

Flask, REST APIs, database integration, backend design

Frontend Masters

JavaScript: From First Steps

JavaScript (ES6+), asynchronous programming, DOM, modern web development

Udemy

NumPy Data Analysis

NumPy, data preprocessing, statistical analysis, numerical computing

University of Moratuwa (CODL)

Python & Web Development

Programming concepts, HTML, CSS, responsive web design

LANGUAGE SKILLS

Mother tongue(s): **SINHALA**

Other language(s): **ENGLISH**
